Home Sweet Farmhouse Flour Sack Tea Towel

1. Give your white flour sack tea towel an iron.
2. Lay out your tea towel on a firm surface. Then carefully remove the backing paper from the stencil. If some of the stencil remains on the backing paper, pop the transfer paper back over the top of the stencil and rub firmly with your store card.
3. Place your Home Sweet Farmhouse Stencil where you would like it to go on your tea towel. Rub firmly with your store card.
4. Then pop out some black paint and dip in your foam wedge. Pounce away any excess paint and begin to apply to your tea towel. Don't go on heavy with the paint as this will cause bleeding under your stencil.
5. Let completely dry. Remove the stencil and using your craft knife remove the letter inserts being careful not to cut your tea towel.
6. Set your iron the hottest setting with NO steam. Grab an old tea towel and place over your design. Iron over the tea towel for a minute or so to heat set.
